1:30 pm

Adjourn

PPACMAN will hold a regional meeting in Bethesda, MD with both dermatologists and rheumatologists from academic, community, and combined clinics sites. Please join us for a discussion of how to enhance collaboration between rheumatologists and dermatologists to improve outcomes for patients with psoriatic disease.

There is no fee to attend and breakfast and lunch are provided!

The goal of the meeting is to understand barriers and facilitators of co-management and resources needed to improve co-management. This may include “in an ideal world” scenarios in which alterations in the health care system are considered. We will also elicit what types of tools or information PPACMAN can provide on the website to support the needs of the group.

The mission of the Psoriasis and Psoriatic Arthritis Clinics Multicenter Advancement Network (PPACMAN) is to optimize the clinical care of patients with psoriatic disease through multidisciplinary collaboration, education and innovative research.

The meeting will take place at the Bethesda Marriott on Pooks Hill in Bethesda, MD, on Saturday, October 26, 2019.

Food and beverages will be provided by PPACMAN.

This activity is supported by a grant from Pfizer.
